Contents of Volume 33

A simple method of predicting bubble size in bubble columns 1
R. H. S. Winterton (Birmingham, UK)

On the local gas holdup and flow pattern in standard-type bubble columns 7
J. Fischer, H. Kumazawa and E. Sada (Kyoto, Japan)

Strategies for slop cut recycling in multicomponent batch distillation 23
L. Bonny, S. Domenech, P. Floquet and L. Pibouleau (Toulouse, France)

Hollow-fiber solvent extraction of gold from alkaline cyanide solution 33
Z. Lazarova (Sofia, Bulgaria), Y. Zhang, M. Jin and X.-J. Chai (Dalian, China)

Experimental investigation into the influence of the particle size distribution upon the local mixing mechanisms in a flowing bulk material 39
M. Peciar, H. Buggisch and M. Renner (Karlsruhe, Germany)

Synthesis of 1,5-cyclo-octadiene 45
K. Sporka and J. Hanika (Prague, Czech Republic)

Binary diffusivities of liquid mixtures of methyl myristate and methyl palmitate at ambient pressure 51
C. A. Lockemann and E.-U. Schlünder (Karlsruhe, Germany)

Validation of gas-lift capillary bubble column as a simulation device for a reactor by the study of CO_2 absorption in $Na_2CO_3/NaHCO_3$ solutions 55
B. Benadda, M. Prost, S. Ismaily, R. Bressat and M. Otterbein (Villeurbanne, France)

Variation of quality attributes in serially connected independent food reactor units.
Part 1. 61
I. Körmendy (Budapest, Hungary)

Some experiences with the application of the percolation concept for modeling trickle-bed fluid dynamics 67
T. Krauß and H. Hofmann (Nürnberg, Germany)

Heat transfer and flow of bulk solids in a moving bed 73
J. Niegsch, D. Köneke and P.M. Weinspach (Dortmund, Germany)

Heat transfer and pressure drop in a plastic heat exchanger with triangular channels 91
G. Hetsroni and A. Mosyak (Haifa, Israel)

Performance characteristics of packings with boundary layer turbulizers
II. The packing dynamic hold-up 101
Sv. Nakov and N. Kolev (Sofia, Bulgaria)

Comment

Comment on studies on axial dispersion in fixed beds (D. J. Gunn, *Trans. Inst. Chem. Eng.*, *47* (1969) T351; D. J. Gunn, *Chem. Eng. Process.*, *32* (1993) 333) 107
E. Tsotsas (Stade, Germany) and E.-U. Schlünder (Karlsruhe, Germany)

D. J. Gunn (Swansea, UK)

Book Reviews 115

Reliable numerical calculation of the breakthrough curve of an adsorption column 117
J. Reunanen, S. Palosaari (Lappeenranta, Finland), M. Miyahara and M. Okazaki (Kyoto, Japan)

Modelling and experimental investigation of a new type of thermochemical transformer based on the coupling of two solid–gas reactions 125
E. Lepinasse, V. Goetz and G. Crozat (Perpignan, France)

Elsevier Sequoia

A comparison of different approaches to calculating the currents through solid and fluidized beds and the sedimentation of concentrated suspensions of uniformly sized particles in view of a new approach, which takes the counter-current into consideration 135
P. Meißner (Konstanz, Germany)

Mechanical dewatering of the flotation concentrate of coking coal 141
M. Palica (Gliwice, Poland)

Filtration of borax solutions through perlite 151
I.E. Kalafatoğlu, T. Ayok and N. Örs (Gebze, Turkey)

Heat transfer in monoliths 161
K. Werner (Leverkusen, Germany) and H. Martin (Karlsruhe, Germany)

High-pressure phase equilibria and densities of the binary mixtures carbon dioxide–oleic acid, carbon dioxide–methyl myristate, and carbon dioxide–methyl palmitate and of the ternary mixture carbon dioxide–methyl myristate–methyl palmitate 171
C.A. Lockemann (Karlsruhe, Germany)

Wall-to-liquid mass transfer in a packed-bed reactor: influence of Schmidt number 189
M.A. Latifi, A. Laurent, G. Wild and A. Storck (Nancy, France)

Interfacial tensions of the binary systems carbon dioxide–oleic acid, carbon dioxide–methyl myristate, and carbon dioxide–methyl palmitate and of the ternary system carbon dioxide–methyl myristate–methyl palmitate at high pressures 193
C. A. Lockemann (Karlsruhe, Germany)

A comparative study of wastewater treatment by chemical wet oxidation 199
D. Weichgrebe and A. Vogelpohl (Clausthal-Zellerfeld, Germany)

Improved asymptotic approximations for transient conduction and diffusion processes 205
H. Martin and M. Saberian (Karlsruhe, Germany)

Heat transfer to liquid–solid fluidized beds 211
M. Haid, H. Martin (Karlsruhe, Germany) and H. Müller-Steinhagen (Guildford, UK)

Heat transfer with reaction in monoliths 227
K. Werner (Leverkusen, Germany) and H. Martin (Karlsruhe, Germany)

Discrimination of fluid bed models and investigation of particle-to-gas mass transfer by means of drying experiments 237
E. Tsotsas (Stade, Germany)

A review of recent chemical techniques for the determination of the volumetric mass-transfer coefficient $k_L a$ in gas–liquid reactors 247
A. Lara Márquez, G. Wild and N. Midoux (Nancy, France)

Flow boiling heat transfer to saturated pure components and non-azeotropic mixtures in a horizontal tube 261
M. Niederkrüger (Lindau/Bodensee, Germany) and D. Steiner (Karlsruhe, Germany)

Heat transfer during film condensation—uniform description of heat and mass transfer of film flows and related processes 277
J. Müller (Karlsruhe, Germany)

Hydrodynamics and mass transfer in an impinging-stream loop reactor aerated from the top 285
E. S. Gaddis (Clausthal-Zellerfeld, Germany)

The kinetic averaged temperature—a new aspect in modelling fixed bed reactors 291
R. Wagner and T. Mannschott (Karlsruhe, Germany)

Power and discharge numbers of radial-flow impellers. Fluid-dynamic interactions between impeller and baffles 295
K. Bittins and P. Zehner (Ludwigshafen, Germany)

Adsorption kinetics of emulsifiers at oil–water interfaces and their effect on the mechanical emulsification 307
M. Stang, H. Karbstein and H. Schubert (Karlsruhe, Germany)

Jet agglomeration and dynamic adhesion forces 313
S. Hogekamp, M. Stang and H. Schubert (Karlsruhe, Germany)

Neural network modelling for photochemical processes 319
C. A. O. Do Nascimento (São Paulo, Brazil), E. Oliveros and A. M. Braun (Karlsruhe, Germany)

Comparison of the enzyme inhibition effect of different humic substances in aqueous solutions 325
J. B. Jahnel and F. H. Frimmel (Karlsruhe, Germany)

Vibration dewatering..... 331
K. Keller and W. Stahl (Karlsruhe, Germany)

Pool and forced convective vaporization of saturated liquid mixtures..... 337
D. Steiner (Karlsruhe, Germany)

Entrained flow gasification of coarsely ground Chinese reed..... 353
H. Roll and K. Hedden (Karlsruhe, Germany)

The oxidation of carbon monoxide by oxygen over platinum, palladium and rhodium catalysts from 10^{-10} to 1 bar 363
S. Fuchs, T. Hahn and H.-G. Lintz (Karlsruhe, Germany)

Electrostatic agglomeration and centrifugal separation of diesel soot particles..... 371
C. Wadenpohl and F. Löffler (Karlsruhe, Germany)

Heterogeneously catalysed gas phase oxidation of 1,3-pentadiene: products and reaction paths 379
K. Griesbaum, H. Schultheis and Y. Yang (Karlsruhe, Germany)

NMR flow imaging of pastes in steady-state flows..... 385
J. Götz (Karlsruhe, Germany), D. Müller (Rheinstetten, Germany), H. Buggisch and C. Tasche-Lara (Karlsruhe, Germany)

Development and assessment of correlations for predicting stability limits of swirling flames 393
S. Hoffmann, P. Habisreuther and B. Lenze (Karlsruhe, Germany)

Modelling and validation of soot concentration patterns of turbulent diffusion flames based on data from plug flow reactor experiments..... 401
B. Bartenbach, C. Hirsch, M. Huth and W. Leuckel (Karlsruhe, Germany)

Kinetics of the esterification of phthalic anhydride with 2-ethylhexanol. I. Sulfuric acid as a catalyst..... 413
J. Skrzypek, J. Z. Sadłowski, M. Lachowska (Gliwice, Poland) and M. Turzański (Katowice, Poland)

Determination of pressure drop through gas distributors in multistage fluidized-bed vessels 419
A. Sobolewski (Zabrze, Poland) and J. Bandrowski (Gliwice, Poland)

Local rates of heat and mass transfer during condensation of non-eutectic vapours of binary immiscible liquids .. 429
O. Tutkun (Gebze-Kocaeli, Turkey)

Performance characteristics of a packing with boundary layer turbilizers. III. Liquid-film controlled mass transfer .. 437
N. Kolev and Sv. Nakov (Sofia, Bulgaria)

Performance characteristics of a packing with boundary layer turbulizers. IV. Gas–film controlled mass transfer ... 443
Sv. Nakov and N. Kolev (Sofia, Bulgaria)

Effect of transfer in the vapour phase on the extraction by pervaporation through organophilic membranes: experimental analysis on model solutions and theoretical extrapolation 449
D. Beaumelle and M. Marin (Thiverval-Grignon, France)

Nucleate boiling of non-Newtonian fluids in a stirred tank reactor..... 459
L. Floquet–Muhr and N. Midoux (Nancy, France)

Technical Note

Crystal growth dispersion in an MSMPR crystallizer—a mathematical model 465
K. Machej (Gliwice, Poland)
